STANDARD SEEDS

PRICE LIST 1932

BEANS, GOLDEN WAX

Wm. T. PHILIPPS & CO.
SEEDSMEN

519 MONROE STREET

TOLEDO, OHIO

IN PRESENTING you with our list of Seeds for Spring and Summer planting, we beg to say that for many years we have made this our business and feel confident that the Seeds we offer will give you good satisfaction, as great care has been taken to have them grown from the finest strains and tested for vitality before we offer them for sale.

We invite critical inspection before buying elsewhere, for we feel assured that this is needed to convince you that it is not necessary to send out of the city for anything in this line.

Our prices are as low as possible for strictly high grade Seeds—the best it is possible to produce—and no better seeds are to be had at any price.

OUR PRICES—We shall adhere as closely as possible to the prices quoted in this catalog but the market value of some seeds is variable. This is most noticeable in grass, clover seeds, onion sets and seed potatoes. Quotations for such articles will be furnished on application.

Our prices include delivery free by mail for all Packets, Ounces and Quarter Pounds purchased from this price list. Prices on larger lots are based on purchaser paying transportation charges.

ADDRESSES, ETC.—In ordering, please be particular to sign your Name, also that of your Postoffice, County and State plainly; also mention mode of conveyance you prefer—whether by mail, express or freight. Serious delays are sometimes occasioned by failing to give attention to these matters.

BAGS ARE FURNISHED AT THE FOLLOWING RATES: Quarter bushel, 15 cents; half bushel, 20 cents; two bushel, 30 cents.

NON-WARRANTY—We give no warranty, expressed or implied, as to the description, purity, productiveness, or any other matter of any seed we send out, and will not be in any way responsible for the crop.

Hoping our customers will appreciate our efforts to meet their wants, and trusting we shall become better acquainted during the coming year, to our mutual profit, and soliciting a share of your orders, we remain,

Yours truly,

Wm. T. Philipps & Co.

Our Fancy Park, Philipps Special and Shady Nook Lawn Grass Mixtures that are so popular with the landscape gardeners are composed of the very best and cleanest grass seed obtainable, no chaff or filler being used. And while the cost per pound may be greater, the cost per lawn will be smaller, as heavy sound, clean seed mixtures of good germination will go much farther than seed that runs thirty to fifty per cent chaff. And in using our grasses you are assured of the minimum amount of weeds, and the maximum in lawn perfection.

Fancy Park Lawn Grass. This splendid mixture produces beautiful, permanent lawns. It is composed of grasses which are adapted for the purpose of producing turf that retains its rich, green color throughout the entire summer. In making up this brand we are careful to use only fancy, re-cleaned seed. Per lb., 50c.

Philipps Special Lawn Grass. This is a first-class mixture that will quickly give a thick, green sod. It is composed of good, clean seed and will be found well adapted for general lawn purposes. Per lb., 40c.

Shady Nook Lawn Grass. For obtaining a satisfactory growth of grass under trees and in other shady places this mixture, which contains a variety of strong-rooted grasses, is most suitable. Per lb., 55c.

White Clover. Fancy, for Lawns, per pound, 65c.

Hotkaps

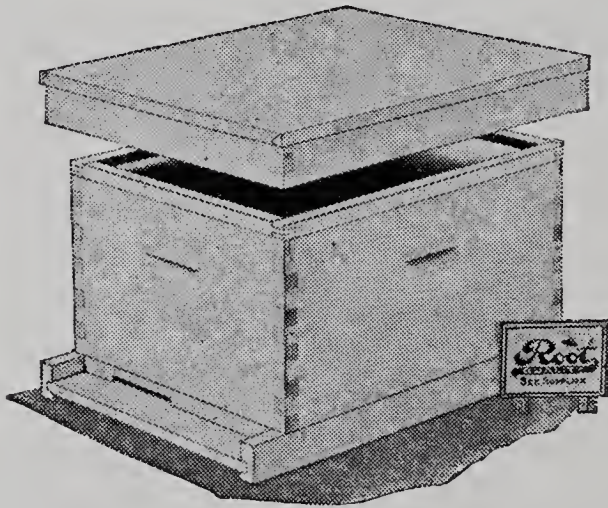

New Method of Plant
Protection

Protects plants from frost and other elements, matures crops earlier, keeps insects out, keeps soil soft. They are made of a specially prepared waxed paper and are cone-like in shape, measuring about 11 inches in diameter at the base and coming to a point at the top. When placed over the plants and held firmly in place by the soil around it, Hotkaps become individual miniature hot-houses.

Prices: 1,000 lots, \$11.00; 5,000 lots, \$10.75 per M; 10,000 lots, \$10.50 per M; 250 Trial Package including Garden Setter with Tamper, \$4.00; 100 Home Package, including Garden Setter with Tamper, \$2.50; Germaco Hotkap Steel Setter with Tamper, \$2.50; postage extra.

FERTILIZERS

All prices on Fertilizers subject to market changes.

VIGORO. A specially prepared plant food for lawns, vegetable and flower gardens, shrubbery, trees, etc. 5 lbs., 50c; \$1.75 per 25 lbs.; 50 lbs., \$3.00; \$5.00 per 100 lbs.

WIZARD BRAND Sheep Manure

Apply 1000 lbs. per acre. One of the most extensively used of animal manures. The analysis shows it to be a perfectly balanced plant food. For garden, lawn or greenhouse use, nothing surpasses sheep manure; it is clean and easily handled, besides giving immediate results. 30c per 5 lbs.; 10 lbs., 50c; \$1.00 per 25 lbs.; 50 lbs., \$1.75; \$3.00 per 100 lbs.; 500 lbs., \$12.50.

SULPHATE OF AMMONIA. Apply 75 to 100 lbs. per acre only with other fertilizers deficient in nitrogen. A valuable fertilizer for all plants in which a large leaf development or rapid growth is desired; will stimulate growth almost immediately. Analysis equal to 25% of ammonia. 5 lbs., 50c; 80c per 10 lbs.; 25 lbs., \$1.25; \$2.25 per 50 lbs.; 100 lbs., \$4.00; \$7.50 per 200 lbs.

NITRATE OF SODA. Apply 100 to 150 lbs. per acre, mixing with land plaster or other fertilizers to render application more easy. Use only after plants are above ground. If used in liquid form dilute 2 ozs. to 1 gallon of water and do not apply oftener than twice a week. 5 lbs., 50c; 80c per 10 lbs.; 25 lbs., \$1.25; \$2.25 per 50 lbs.; 100 lbs., \$4.00; \$7.50 per 200 lbs.

BONE MEAL. Unusually rich in nitrogen and phosphoric acid, the two principal plant foods. We recommend this especially for lawns, gardens and greenhouses, or any purpose where a high-class fertilizer counts. Apply 800 to 1000 lbs. per acre. 35c for 5 lbs.; 10 lbs., 65c; \$1.00 for 25 lbs., 50 lbs., \$1.50; \$2.50 per 100 lbs.

ROYSTER'S 4-8-6 LAWN AND GARDEN FERTILIZER. 25 lbs., \$1.25; 100 lbs., \$3.00; 500 lbs., \$11.00.

CATTLE MANURE. Shredded and dried and therefore considerably more concentrated than as it comes from the stable. 100 lbs., \$3.00.

ADCO. A bacterial food for making artificial manure, by mixing it with leaves, grass cuttings, green weeds or, in fact all the many wastes that accumulate during the garden year and applying water, the product is a clean manure. 25 lb. bag, sufficient to make one-half ton of manure, \$2.00; \$10.50 per 150 lb. bag, sufficient to make 3 tons of manure.

MURIATE OF POTASH. Apply 100 to 150 lbs. per acre, usually with other fertilizers. Excellent for potatoes, corn, grains, etc. Analysis, equal to 50 per cent. actual potash. 5 lbs., 50c; 80c per 10 lbs.; 25 lbs., \$1.25; \$2.25 for 50 lbs.; 100 lbs., \$4.00; \$7.50 for 200 lbs.

PREMIER BRAND POULTRY MANURE is a superior fertilizer both from the standpoint of analysis and results produced. It is exceedingly soluble, readily absorbed, stimulates bacterial action in the soil and contains no live seeds or germs. 25 lbs., \$1.25; 100 lbs., \$3.00.

PEAT MOSS is successfully used for general improvements of soil conditions.

For greenhouse benches and seed beds.

For potted plants.

For bulb storage, also tubers over dormant season.

For mulching flower beds, shrubs, evergreens, etc.

For preparing lawns and keeping them in good condition, etc.

Large bale, \$4.50; small bale, \$1.50.

Special Ton Prices on application.

ROSES FOR THE GARDEN

Many of our old customers are familiar with the high-grade roses that we send out, but to those who have never planted our stock, we wish to direct their attention to the following:

All our roses are 2-year-old field grown budded stock, except where noted: While some planters prefer stock grown on their own roots on account of the possibility of budded plants developing wild shoots, this will rarely occur if the deep planting as directed in the following paragraph is followed. Much can be said in favor of budded plants, they being more vigorous, producing finer blooms, coming into bearing sooner, and are as permanent and hardy as those on their own roots, while many of the very finest varieties will not succeed at all when grown on their own roots. Preference is given to budded plants by all who have had experience with the different classes.

HOW TO GROW ROSES

Situation—Good roses may be grown in any open, sunny position, if sheltered from north winds, and clear of all roots of trees and shrubs.

Planting—The soil should be rich, and carefully prepared to a depth of at least 18 inches. The most satisfactory fertilizer to use is well-rotted animal manure, of which a liberal quantity may be thoroughly mixed with the soil. Ground bone meal, at the rate of trowelful for each plant, may also be added at the time of planting.

Plant Hybrid Tea Roses 18-24 inches apart and Hybrid Perpetuals 2½-3 feet apart. All budded roses should be planted so that the crown from which the shoots arise is 1 inch beneath the surface of the bed.

Winter Protection—In this latitude we have found that the most satisfactory protection is to draw up a mound of soil from 8 to 10 inches high around the base of the plant, then covering the entire bed after the ground begins to freeze with any loose material, such as straw or *peat moss.

Climbing or Trellis Roses—Planted around verandas or porches they are especially desirable. Other choice locations are for training over summer houses, pergolas, along fences and the rose walk. Climbing roses should be planted from 3 to 8 ft. apart, depending upon how dense a covering is desired. Little, if any, pruning should be done. Branches that grow in long shoots, many times 15 to 20 ft. or more, should be carefully trained and tied to trellis or support.

HYBRID PERPETUAL ROSES

Frau Karl Druschki (White American Beauty)—Pure white, long, immense buds and perfectly double flowers. For bedding and for cutting it is the finest in its class.

Gen. Jacqueminot—Bright shining crimson, shapely buds, fragrant. The Jack Rose is noted for its good qualities.

Ulrich Brunner—A rose of beautiful form and finish, brilliant cherry-crimson. Vigorous, blooming continuously in the open.

Paul Neyron—This magnificent rose is by far the largest variety in cultivation. Very double and full, deep rose and delightfully fragrant.

American Beauty—Very large flowers, deep pink to carmine-cerise, delicately veined with darker red. A strong grower and deliciously fragrant.

Magna Charta—An old variety of great merit. The blooms are of large size, in color a bright pink suffused with carmine. It is very fragrant and free flowering.

HARDY DECORATIVE SHRUBS and VINES

ALMOND, Double-flowering—A handsome bush which blooms early. Red or white.

ALTHEA (Rose of Sharon)—Pink, red, white, or purple flowers produced in late summer after the other shrubs are through flowering.

BUDDLEIA (Butterfly Bush)—The spikes of purple blooms are very attractive to butterflies.

FORSYTHIA (Golden Bell)—Bright yellow flowers at the earliest hint of spring.

HYDRANGEA, Hills of Snow—Pure white balls of bloom.

HYDRANGEA, Peegee—Immense white flowers.

LILAC, Purple—The best liked of all shrubs.

SPIREA, Anthony Waterer—Rosy red blooms in late summer.

SPIREA, Bridal Wreath—Clusters of white blooms in long garlands.

VIBURNUM (Snowball)—White, ball-like flowers for Decoration Day.

CLEMATIS, Jackmanni—Violet-purple.

AMPELOPSIS, Veitchii (Boston Ivy)—The popular climber for brick and stone buildings and walls.

AMERICAN IVY—A well-known sort which is used for covering walls or planting in cemeteries, especially in the shade.

WISTARIA—A strong developed vine produces hundreds of flower panicles, while no foliage is visible until after the flower is faded. They thrive best in the sun, and with an application of cow manure once or twice a season they respond marvelously.

MISCELLANEOUS TOOL

Easy GARDEN RAISER**Beats 10 Men with Hoes!**

Kills Weeds, Mulches Soil, Cultivates Garden so much Faster, Easier and Better than Hoeing

Have a wonderful garden this year—the new, EASY way—with one-tenth the work . . . 10 times the pleasure! Faster-growing, sturdy plants. Earlier, heavier yields.

Fast As You Walk —and almost as easy. Just guide it along the row. Sharp blades revolve against double edge underground knife. Kills every weed, crumbles the clods and pulverizes the surface crust. Breaks up and fills the moisture-robbing cracks that appear after every rain. Leaves a perfectly smooth, finely-worked mulch.

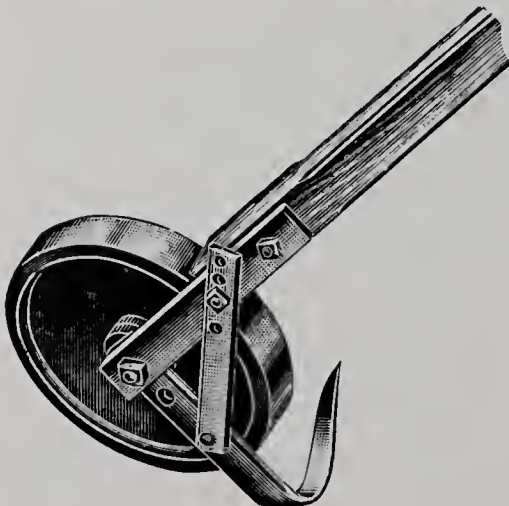

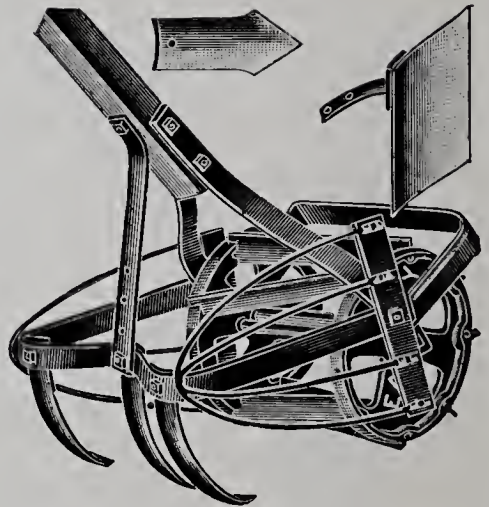

And MORE! Stirs and lifts the soil, making it porous and air-filled. This releases a rich store of plant-building elements. The soil is "richer." Plants thrive. They bear earlier. Yields are heavier.

So Easy to Handle! Like a light-running lawnmower. Guides so easily that women and children enjoy using the EASY. They can tend a big garden quickly, without tiring. Saves the old-time drudgery of hoeing. No chopping, lifting, jerking. A few minutes of easy work in the cool of the day replaces hours of back-breaking hoeing in the hot sun.

Many improvements. Rust-proof frame. Improved guards protect leaves. Real blades made of special, highly polished steel.
